WATER	YES	NO	Comments
Is there a public hydrant within 1000 feet of the dwelling?			
If not, is there a year round alternate water source within 1000 ft.?	Describe it.		
Is the water source accessible to firefighting equipment? (i.e. within 20 feet or less of a hard packed road surface)			
Does the water source contain at least 10,000 gallons of water?			
It is assumed that the source provides a continuous flow of water of 500 gallons per minute for at least 20 minutes. If not, explain.			
FIRE DEPARTMENT			
Distance to nearest primary responding fire department (If dual first response, provide both.)			
Does the FD have the equipment necessary to draft from the alternate source?			
Does the FD have at least 2 pumper trucks?			
Do they bring at least 4000 gallons of water?			
DWELLING			
Does the home have a monitored Central Station Fire Alarm that is maintained and in use?
