

MARITIME PROGRAM GROUP

coverage in *motion*

Welcome to Maritime Program Group. We are specialists in protecting all types of marine assets, across every category of marine risk – Recreational Marine, Inland Marine, and Ocean Marine. In addition, we serve complex personal lines insurance needs for the affluent through our Private Client Services. Whether the need is for coverage on land or in the water, MPG has the expertise, the products, the underwriting programs, and the service to create a comprehensive solution.

MPG: Background and Structure

Our history dates back to the early 1990's, when Maritime General Agency and Marine MGA were founded. With the addition of Windward Marine Underwriters in 2002, it became three distinct marine insurance underwriting facilities, each operating independently. Maritime Program Group was formed to unite these companies and integrate their programs, services, expertise, and shared heritage. The result is more than the largest program underwriter of Recreational Marine insurance in the United States. It's a company that addresses every aspect of marine-related risks – Recreational Marine, Inland Marine, Ocean Marine, and for those whose financial situations require special attention, Private Client Services.
