

NAME: \_\_\_\_\_  
POLICY #: \_\_\_\_\_  
VESSEL: \_\_\_\_\_  
CAPTAIN: \_\_\_\_\_

I hereby agree that marine-use approved carbon monoxide detector(s) and smoke detectors(s) have been installed on the vessel. I also agree that I will perform necessary maintenance to ensure these detectors are fully operational at all times.

I will ensure that exhaust and ventilation hoses and ducts are free from obstruction and are fully operational.

I understand that carbon monoxide is a colorless, odorless, tasteless gas that can be fatal if inhaled. I understand that this gas is produced by all internal combustion engines, including generators, as well as appliances yielding an open flame, such as propane and butane stoves.

It is agreed and understood that failure to secure and/or maintain carbon monoxide detector(s) and smoke detector(s) on board will void coverage on this vessel.
