

If your clients have employees or contractors working on navigable waters — such as oceans, rivers, or other waterways used for transportation or commerce — they may be required by federal law to carry U.S. Longshore and Harbor Workers' Compensation Act (USL&H) insurance.

USL&H coverage applies to shipbuilding & repair as well as work done on piers, docks, terminals, wharfs, marinas, and areas used in loading and unloading vessels. Construction and offshore operations are included.

U.S. Longshore & Harbor Solutions
